Hi
I can't remember if I wrote before, but I kept your TT for some reason.
I had four hits. If we've corresponded before, please forgive. I
was extremely busy and may have erased.
Anyway . . .
HURD Vt. I have Hurds in Sandgate VT in your time period--late 18th century
early 19th century. There are many of them in the area.
I have a Samuel Phillips from MA going into NY about 1805. I ca't trace
him back and hope the name rings a bell.
WOODMAN-- I have traced my Woodman's back to Aylesbury, England, about
40 miles west of London. I've seen their houses back to 1648 when I was
there two years ago. The last few generations in England were stained
glass artisans.
WASHBURN-- This is a name I also have in Sandgate VT, but I am stuck there.
It is associated with HURD>
Do Any of these connect with yours?
